PERSONAL PROJECTS

Music Streaming web site (09/2019 - 10/2019)
- In this project I have learnt how to use the basics of Html, Css javascript and jquery basics.It helps the user to listen songs from different variety of movies.

Todo mobile app (05/2021 - 05/2021)
- During this project, I have learnt the basic components in react-native like View, Text, Scroll View, Alert etc..,. This is a basic crud app where we can add a todo, delete a todo, and list all the todos.

Phonebook web application (05/2020 - 05/2020)
- In this project, I have learnt how to use the responsive front-end framework Bootstrap - 4 and also the working of CRUD in PHP. It helps the user to add a new contact, delete update and read the details of the contact.

E-Commerce website (08/2019 - 02/2020)
- In this project, I have learnt how to use the basics of laravel and also the basics of MySql for data storage and data retrieval from the database. This website helps the user to purchase the products online.

Consultancy website (06/2020 - Present)
- In this project I have learnt how to use the frontend framework Angular and develop responsive website.
- This project helps me to learn concepts like components, Dependency Injection, Services, and Observables, etc..,

Time-Entry application (06/2020 - 06/2020)
- This is a React-based project that helps me to learn how to use the inbuilt javascript library Easytimer.js and work with an easy timer. And also how to work with react components.

Employee Management (11/2020 - 11/2020)
- This is a react. js-based website. While doing this website I have learned several concepts like Components, props, state management in react.
- I have also learnt concepts regarding git.
- Also deployed this website using heroku https://nameless-meadow-86946.herokuapp.com/ link to open.
